Low-Temperature Chest Freezers -60°C ILCF-1000 Series available with maximum capacity up to 150 L, 270 L, and 360 L with a password protection system to prevent unwanted access. Equipped with two-layer heat insulating foamed door and the insulation design of the outer door system with multiple patents can prevent loss of refrigerating capacity in an effective way. Six sides of the cabinet are made from high-performance vacuum insulation material, improving thermal insulation performance to a large extent.

Optional Accessories

- Coated Hanging Basket
- Foaming Lid
