Portable pH Meter IPM-100 Series offers a big screen to display readings in an extended range from -2 to 20 pH and simultaneously shows temperature from -5.0 to 130°C and ORP from -2000 to 2000 mV. Design with equipment protection casing. This included a multi-parameter electrode that has a built-in temperature sensor. No additional temperature probe is required.

Similarly, the electrode has a mini amplifier to reduce measurements resistant to noise and electrical interference. Automatic buffer recognition of buffer groups including DIN, NIST, GB compliance. Offer 1 to 5 calibration points with automatic and manual temperature compensation. The ORP scale of this meter can be used with the pH and temperature electrode to check the condition of the pH electrode.

- Features with TFT touch screen and LCD display
- Available parameters: pH/mV/Temperature
- CE certified
- Offer 2 to 5 calibration points with automatic and manual temperature compensation
- Maximum storage: 2000 set
- IP65 housing
- Automatic temperature compensation
- Auto power off
- Package with combination electrodes, temperature probe, buffer
- Li-on battery and AA battery
- Support RS232, USB, and GLP compliance
