Top-loading Balances 0.1g
IBT-3300(110V)

Top-loading Balances 0.1g IBT-3300 feature weighing capacities of 1000 g, and readabilities of 0.1 g. Some applications include weighing, counting, check weighing, weighing under unstable conditions, peek hold and percentage (%).

Iris top-loading balances are designed for routine weighing applications in your workplace, offering accuracy and repeatability during essential weighing applications in education, laboratory and, industrial sector. It delivers competitive performance at an economical price, featuring RS232 connectivity for easy communication, and a backlit display and a simple interface for uncomplicated operation, these balances are perfectly designed for your workplace.

Standard features include Basic functionality for routine weighing applications. Equipped with three essential weighing modes, RS232 connectivity for data transfer and storage and internal calibration (in selected models) making them ideal for routine weighing applications.

Designed for uncomplicated operation with easy-to-use display and interface Equipped with an easy-to-read, bright backlit display and a simple user interface, they are incredibly easy to operate, with almost no training required.

Smart design and durable construction Iris top pan balances have a small footprint which saves on benchtop space while providing a large weighing surface. They are durably constructed, and feature a stainless-steel pan to withstand day-to-day use in the workplace.

Technical Specification:

Model	IBT-3300(110V)
Capacity	1000 g
Repeatability	±0.2 g
Resolution	0.1 g
Display	LCD display with backlight
Pan Dimensions	133 mm
Construction Material	Full plastic housing and Stainless steel pan
Linearity	±0.2 g
Measuring Parameters	g,oz,ct.
Stabilization Time	1.5 seconds
Dimensions	2650x200x80 mm
Net Weight	1200 g
Electrical Requirements	AC 110V
Catalogue No.	6801001501
