

Laboratory Glassware Washers

IGW-2400(220V/50Hz)

Laboratory Glassware Washers IGW-2400 is the most popular glassware washer that provides washing and drying function with HEPA filter can clean and dry the inner of tubular things especially for laboratory and medical applications.

The IGW-2400 is decontaminating equipment that worked on moist heat to remove contamination and bacteria with a large wash cabinet and short programme cycles. The key features include stainless steel interior, exterior, racks and inserts withstand heavy use and provide protection against corrosion resistance materials and offer internal components peristaltic pumps and seals laboratory-grade for excellent durability of instruments.

Technical Specification:

Model	IGW-2400
Functions	Washing
Capacity	198 L
Materials	Internal Panel: 316L, External Panel: 304L
Peristaltic pump	2 to 4 pcs
Programs	36 Default, 100 Custom
Interface	RS232, pure booster pump
Heating Power	3/8/18 KW
Dimensions	1000×617×770 mm
Electrical Requirements	220V/50Hz
Catalogue No.	370101002
